

# A Basic Approach: How to pick up spares

**To pick up a 10 pin:** Start with your left foot on #3 board (technically the 37 board) on the left side of the lane. Walk toward 10 pin, and roll the ball over the 3rd arrow. For 6-pin, move your starting position 3 boards right (i.e., the 6 board, 3+3). For 3/9 pins, move starting position 6 boards right from your 10-pin position (or 9 board: 3+3+3) and throw the ball over the third arrow.

**To pick up a 7 pin:** Start with your left foot on #7 board (7 for 7!) on the right side of the lane. Walk toward the 7 pin, and roll the ball over the 2nd arrow. For 4 pin, move your starting position 3 boards left (i.e., the 10 board, 7+3) and roll the ball over the 2nd arrow. For 2/8 pins, move 6 boards from the 7-pin starting position (i.e., 13 board 6+7) and roll the ball over the second arrow.
